

Flight Information and Policies

Flight Changes and Delays

Flight changes are allowed with a fee. In the event of delays exceeding 3 hours, compensation may be available. We recommend checking our website or mobile app for the most up-to-date flight status information.

Connecting Flights

We recommend a minimum connection time of 45 minutes between flights. This allows sufficient time for deplaning, navigating the airport, and reaching your next gate.

Weather Delays

In case of inclement weather, check for weather-related delays on our website or mobile app. We prioritize passenger safety and may adjust flight schedules accordingly.

Cancellation Policy

Devbridge Airlines offers a full refund for cancellations made within 24 hours of booking. After this period, cancellation fees may apply depending on the fare type and timing of the cancellation.
